

JUNIOR CHAMPIONSHIP FINAL AVERAGES 2016-2017

For the purposes of the Junior Championship, the final average for each shooter has been calculated based on the 12 best scores achieved during the season. Any scores below that are counted out. Matches not shot will be counted out provided there are 12 qualifying scores remaining. The results are displayed in **Table A**.

For shooters who have less than 12 scores, their averages have been calculated separately, based on the number of matches shot. These are displayed in **Table B**. These averages do not count towards the Junior Championship and are ranked in order of Aggregate Score.
